# 01 INTRODUCTION

TechTank is a Shark Tank-inspired 12-hour hackathon hosted by the RVCE ACM Student Chapter and Google Developer Groups (GDG) RVCE. Designed to bridge the gap between technical expertise and business acumen, TechTank empowers students to build solutions that are not only technically sound but also market-ready.

## OBJECTIVE

- Help students build strong, market-ready projects during the hackathon.
- Provide a platform to pitch ideas and secure their first investment.
- Connect participants with mentors, industry leaders, and investors to refine their business ideas.

## PRE-HACK WORKSHOP

Before the hackathon, we are hosting an exclusive workshop by E-Dock on Building Scalable Tech. This session will equip participants with industry insights on designing robust, real-world solutions that stand the test of scale and usability.

02

## TIMELINE

7 April

- ✓ BUILD, INNOVATE, AND COMPETE WITH THE BEST

07

# GUIDELINES

- Open to all UG & PG students across all courses in India.
- Teams of 2-4 members.
- Register and submit Round 1 idea on the website before the deadline.
- Maintain professionalism and originality—no plagiarism or AI generated content.
- Use only self-created or publicly available assets to avoid copyright issues.
- The team leaders will receive a confirmation mail with a link to a whatsapp group. Only Team Leaders must join that group.
- The template for Round 1 will be shared in that group.
- Bring your own laptops; WiFi will be provided.
- Avoid moving around campus at night.
- Judges' decisions are final; misconduct leads to disqualification.
